ALEKSANDR DOLINSKY

ABOUT ME

I am actively seeking new professional opportunities as a Front-End Developer, aiming to join a forward-thinking team where I can apply modern development practices, contribute to building exceptional user experiences, and continue growing both technically and creatively as a specialist.

PERSONAL WEBSITE

In this section, you'll find projects that reflect my style.

PROFESSIONAL EXPERIENCE

Experienced Front End Developer with 5 years of expertise in Web Development. Specializing in building scalable user interfaces using React and Vue. Skilled in developing both e-commerce platforms and admin dashboards.

TECHNICAL SKILLS

- Experienced with React Hooks for building dynamic and responsive components.
- Proficient in state management using Redux, Redux Toolkit, and other libraries.
- Skilled in client-side routing with React Router.
- Hands-on experience with popular component libraries: React Bootstrap, Material-UI, Semantic UI React, PrimeReact, Ant Design, Chakra UI.
- Familiar with Next for server-side rendering and static site generation
- Experience integrating TypeScript in React projects.
- Strong understanding of Vue component lifecycle and reactivity system.
- Proficient in state management using Vuex.
- Skilled in navigation and routing with Vue Router.
- Experienced with both Composition API and Options API.
- Knowledgeable in using component frameworks such as Vuetify and Element UI.
- Experience working with single-file components.
- Familiar with Nuxt for SSR and static site generation.
- Experience integrating TypeScript in Vue projects.

React Developer — ADMSS LTD

08/2022 — 05/2025

I was part of a cross-functional team that included a backend developer, a designer, and a QA engineer. I completed many tasks covering the full development cycle — from programming to testing. I worked on the development of two React-based CRM systems for a car dealership: one CRM for automating customer service processes — a solution aimed at optimizing client interactions — and another for internal business processes.

Front-end Developer — Matrix Agency LLC

02/2020 — 08/2022

I participated in development using Vue and React builders. I collaborated with UX/UI designers to transform concepts and prototypes into intuitive, user-friendly, and visually appealing user interfaces. I ensured consistency and brand alignment across platforms and devices by implementing design systems and components according to company guidelines. I utilized frontend tools and build processes to optimize performance. I conducted cross-browser interface testing and took part in implementing CI/CD automation for continuous integration and delivery of features.

EDUCATION

Open International University of Human Development "Ukraine"
(https://uu.edu.ua/)

Software specialist

Interregional Higher Vocational School of Communications
